

35. Christianity in Africa Today

One of the successful methods for evangelizing Africa today is the production of the “Jesus Film,” a portrayal the life, death and resurrection of Jesus Christ from the Gospel of Luke, dubbed in local languages and distributed by Campus Crusade for Christ.

Cooperation is also a hallmark of Christianity in Africa today. For example in 1987 Zimbabwe held a National Church Growth Conference on the theme “Discipling Zimbabwe.” Thirty denominations and all relevant parachurch agencies participated.
